

1 Framework for actions

Lithuanian University of Health Sciences return to regular studies from 1 September, 2021

Publicity of the position of the University and call for COVID-19 vaccination (students and staff) in June

Grounds: goal for 70-80% immunity of the community of the University
Responsible division: Marketing and Communication Department

Anonymous survey of all University staff and students on immunity to COVID-19 (15-30 August)
Responsible division: Occupational Safety and Health Department

Starting from 1 September, 2021, studies are carried out in the usual contact method with the possibility to apply distance learning if necessary
